On October 16, 2006, Sprint Communications Company L.P. (Sprint) filed a petition to arbitrate, pursuant to SDCL 49-31-81 and ARSD 20:10:32:29-32, and Section 252(b) of the Communications Act of 1934, as amended by the Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56 (1996), certain terms and conditions of a proposed Interconnection Agreement between Sprint and Interstate Telecommunications Cooperative, Inc. (ITC). Sprint filed a list of unresolved issues consisting of: (1) Should the definition of End User in this Agreement include end users of a service provider for which Sprint provides interconnection, telecommunications services or other telephone exchange services? (2) Should the Interconnection Agreement permit the parties to combine wireless and wireline traffic on interconnection trunks? (3) Should the Interconnection Agreement permit the parties to combine all traffic subject to reciprocal compensation charges and traffic subject to access charges onto interconnection trunks? (4) Should the Interconnection Agreement contain provisions for indirect interconnection consistent with Section 251(a) of the Act? (5) In an indirect interconnection scenario, is the ILEC responsible for any facility or transit charges related to delivering its originating traffic to Sprint outside of its exchange boundaries? (6) What direct interconnection terms should be contained in the Interconnection Agreement? (7) What are the appropriate rates for direct interconnection facilities? (8) When a two-way interconnection facility is used, should Sprint and Interstate share the cost of the interconnection facility between their networks based on their respective percentages of originated traffic? (9) What is the appropriate reciprocal compensation rate for the termination of telecommunications traffic, as defined by Sprint in the Agreement? (10) Should Sprint's proposed language regarding Local Number Portability be adopted and incorporated into the Interconnection Agreement? (11) Should the Interstate-proposed Directory Listing provisions, as modified by Sprint, be adopted and incorporated into the Interconnection Agreement? Sprint respectfully requests the Commission to arbitrate each of the remaining disputes between Sprint and Interstate, to find in Sprint's favor and to adopt Sprint's proposed contract language. In accordance with ARSD 20:10:32:30, a non-petitioning party may respond to the petition for arbitration and provide additional information within 25 days after the Commission receives the petition.

On October 19, 2006, the Commission electronically transmitted notice of the filing and the intervention deadline of November 10, 2006, to interested individuals and entities.
